01 Introduction

Birdy Pre-Sale Announcement: Building Trust Through Transparency

At Birdy, we believe in complete transparency and building trust with our community. To demonstrate our commitment, we are locking a significant portion of our tokens before the pre-sale. Here's a breakdown of our token locks:

Objectives

Our goal is to create a robust ecosystem where community engagement, security, and real-world applications drive growth and adoption. Through the Birdy marketplace, we will enable fractional and full ownership of luxury assets, offering unprecedented investment opportunities

02 <u>**Our Story**</u>

Rescuing Dogs with Birdy
In a world where countless dogs are abandoned and neglected, Birdy Coin emerges as a beacon of hope. This isn't just another cryptocurrency; it's a revolutionary movement combining the power of blockchain technology with a heartfelt mission to rescue and care for dogs in need. Our community-driven initiative aims to transform the lives of these loyal companions, providing them with the love and care they deserve.

<u>**The Mission**</u>

At Birdy, our mission is simple yet profound: to save and improve the lives of abandoned dogs through innovative funding and support mechanisms. By leveraging blockchain technology and the enthusiasm of our community, we aim to create a brighter future for our furry friends.

Why Solana? The Backbone of Birdy

Solana is one of the fastest and most scalable blockchains in the world, making it the perfect foundation for Birdy. Its high throughput, low transaction costs, and robust security provide an ideal environment for our project to thrive. Here's why Solana is integral to Birdy:

- **High Speed:** Solana can process thousands of transactions per second, ensuring that Birdy Coin transactions are fast and efficient.
- **Low Fees**: Solana's low transaction fees make it cost-effective for users to trade and transact Birdy, maximizing the value for our community.
- **Scalability**: As Birdy grows, Solana's scalable infrastructure will support increased transaction volume without compromising performance.

Exchange Listings

Additional Exchanges:

We are in discussions with several major exchanges to list Birdy. Here are a few exchanges we are targeting:

- **Binance**: The world's largest cryptocurrency exchange by trading volume, providing extensive trading options and high security.

- **Gate.io**: A popular exchange that supports a wide range of cryptocurrencies and offers robust trading features.

- **MEXC:** A global digital asset trading platform with a user-friendly interface and diverse trading options.

- **Bybit:** A fast-growing cryptocurrency exchange known for its advanced trading tools and user-centric features.

- **HTX (formerly Huobi):** A leading global exchange with extensive trading options and strong security measures.We will keep you updated on the progress and confirmed listing dates for these exchanges.

- **BingX:** An innovative exchange that combines digital asset trading with social trading features.
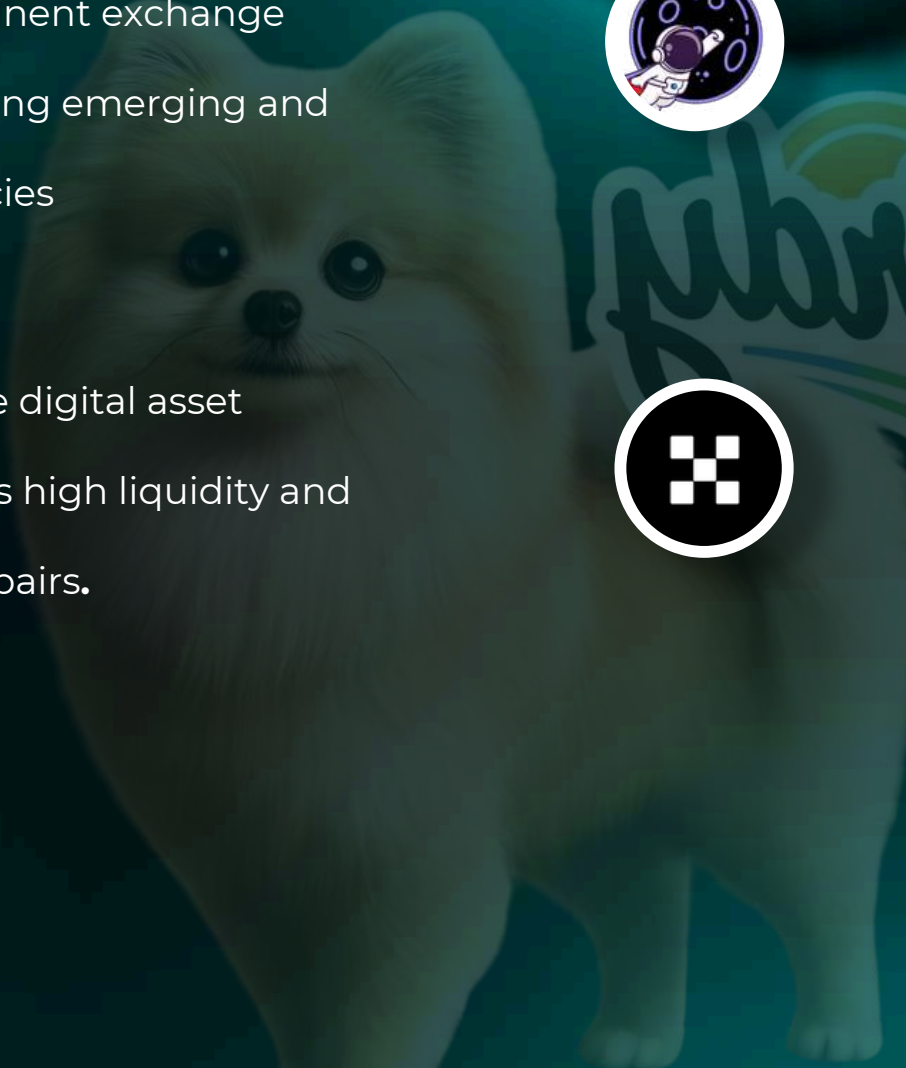

- **LBank.com:** LBank.com is a leading global cryptocurrency exchange platform, offering a secure, reliable, and user-friendly environment for trading digital assets.

- **CoinMoonList:** A prominent exchange platform known for listing emerging and trending cryptocurrencies

- **OKX:** A comprehensive digital asset exchange known for its high liquidity and wide range of trading pairs**.**

06 Plan for Remaining Tokens

To further ensure the stability and growth of Birdy, we have allocated the remaining tokens as follows:

Community Rewards and Incentives

- **Total Allocation:** 200 milllion Birdy (20%)
- **Purpose:** This portion will be used for community engagement and participation incentives, including airdrops, staking rewards, and loyalty programs. These incentives are designed to maintain an active and engaged community, crucial for the long-term success of Birdy.
- **Airdrops:** Periodic rewards for loyal token holders and new participants.
- **Staking Rewards:** Incentives for staking Birdy, encouraging long-term holding.
- **Loyalty Programs:** Bonuses for long-term community members and active participant

Development Fund

- **Total Allocation:** 50 milion Birdy (5%)
- **Purpose:** Reserved for ongoing and future development and marketing initiatives. This ensures continuous project improvement and increased market awareness.
- **Ongoing Development:** Funding for updates and new features.

Strategic Importance:

- **Community Engagement**: By allocating tokens to rewards and incentives, we ensure that users feel valued and remain active participants in the project.
- **Sustainable Growth:** The development fund allows for continuous improvement and innovation, keeping Birdy competitive in the evolving crypto space.

Conclusion:

Our plan balances immediate rewards with long-term growth. By investing in community engagement and development, we are building a sustainable and vibrant ecosystem for Birdy. Join us in this journey and be part of the Birdy community, where your participation and loyalty are always rewarded.

Post Pre-Sale Actions

Adding Liquidity on Raydium:

- **Timing:** Liquidity will be added to Raydium shortly after the pre-sale concludes to ensure a smooth transition to market trading.
- **Transparency:** Regular updates on the liquidity addition process will be provided to ensure transparency and community involvement.
- **Market Stability:** Adding liquidity post-pre-sale will help control the initial market price and reduce the risk of early price manipulation, ensuring a stable trading environment.

Transparency and Monitoring:

- Regular updates and proof of actions will be provided to ensure community trust and compliance with established terms.

Regular Token Burn & LP Token Burn/Locks

Regular Token Burn:

- **Immediate Burn:** 140 millon Birdy (14%) will be burned immediately to reduce the total supply and increase the value of the remaining tokens.

LP Token Burn/Locks:

- **Community Consultation:** We will gather community feedback to decide whether to lock or burn LP tokens, ensuring community involvement in major decisions.
- **Token Allocation:** 100 million Birdy Coins (10%) will be set aside for liquidity actions.
- **Implementation:** Based on community demand, we will either:
- **Lock LP Tokens:** Typically for sometime, labeled as "LP Tokens Lock".
- **Burn LP Tokens:** Conducted transparently with proof provided.

Buybacks and Exchange Listings

Buybacks:

We will also consider conducting periodic buybacks to further stabilize and increase the value of Birdy Tokens. Buybacks involve the company purchasing tokens from the market and either holding them or burning them.

Exchange Listings:

- **Raydium DEX:** We will add liquidity to Raydium and enable trading immediately after the pre-sale ends. Raydium is a leading decentralized exchange on the Solana blockchain.
- **Additional Exchanges:** We are in discussions with several major exchanges to list

Roadmap and Future Plans

## Tokenized Luxury Asset Marketplace:

- Fractional Ownership
- Full Ownership Options
- Secure Transactions
- Verifiable Proof of Ownership
